

# PRIME STAFF

## INDUSTRIAL

### INNOVATIVE SOLUTIONS IN A REACTIVE INDUSTRY

At Prime Staff Industrial, we know that each and every one of our clients and potential clients has different requirements and criteria for recruiting staff.

At Prime Staff Industrial we concentrate on two key areas of our business which compliment the recruitment process of any sized company.

Firstly, we re-educate, motivate and empower our workforce and secondly, we offer a larger choice of added value services to our clients. Both processes are interlinked and allow any Prime Staff Industrial branch to offer any of the following services:

- Security Checks** These can be carried out prior to the engagement of any of our candidates.
- Drug Testing** These can be carried out pre engagement if required and at either our offices or on your premises.
- Transport** Prime Staff has mini buses available to transport our candidates for any difficult to reach locations.
- Identity Checks** All candidates are screened and proof taken in line with current legislation regarding right to work in the U.K.
- Permanent** All candidates are free to take up a permanent position with any of our clients, following completion of 13 weeks on any continuous assignment. There is no charge for this service.
- Work wear** All our candidates can be provided with Prime Staff branded polo shirts on completion of their training period.
- On Site Coordinator** An on site coordinator can be based at our client's premises to assist with the day to day operations including: Timekeeping, Attendance, Pay/Holiday queries, Shift Rota's, Transport issues, Uniform, locker and swipe card control, Disciplinary issues, Drug testing, Inductions, Manual Handling Training, Statistical Reports.
- 24 Hour Contact** As most Industrial companies now operate 24/7, all our branches offer round the clock cover. All are manned by local staff with in depth knowledge of your contract.

## **PRIME STAFF INDUSTRIAL**

**'A Partnership with Prime Staff Industrial works two ways and is built to last, but don't just take our word for it.'**

**Shona McIntosh, H.R. Manager, T.R.S. Inchinnan**

'T.R.S. recently carried out a survey on key areas of the services provided by the recruitment agencies at our Inchinnan factory. This exercise was carried out during a rapid expansion period for our business and two of the areas concentrated on were attrition and quality. Of the 6 suppliers, 4 of whom were National Companies, Prime Staff Industrial came top on both counts and confirmed our decision to continue to work in partnership with them in 2005, as our main temporary labour supplier. During this period, Prime Staff Industrial was also responsible for recruiting 120 permanent staff to add to our core workforce, all were taken from their temporary workforce on site.'

**Bill Dickie, Operations Director, Houston Warehousing**

**A Division of Smith Packaging Services Ltd**

'At a peak, Houston use up to 120 temporary workers, split between day, twilight and night shifts. The introduction of a full time on site representative from Prime Staff Industrial helped free up our own management, whilst ensuring a prompt and efficient service.'

**Stuart Adams, Production Manager, California Cake Company, Part of Enterprise Foods**

'Prime Staff Industrial has been supplying our company with temporary workers since October 1999. During this period, we moved our entire operation from Govan to Coatbridge and Prime Staff coped with this move seamlessly.' - 'One of the strengths of Prime Staff Industrial is the continuity of contact, both Angela and Sean understand our business and it is reassuring to know that the same people will be dealing with our company again in 2005 as sole supplier'
